

Master Sergeant Tovarishcel serves as Senior Department Head and Technical Services Supervisor for the IPF. Additionally, MSG Tovarishcel acts as the official technical advisor to the IPF headquarters and leadership staff and likewise manages our forum and primary website.

MSG Tovarishcel has always been intrigued by the possibility of a real world incel revolution and indeed, coming from the glorious and honorable nation of Russia, has a long and hallowed family tradition of revolutionary service, beginning with his great-grand father who served in the original Red Army in October of 1917. One might even go so far as to say that revolution runs through Tovarishcel's veins thicker than his own Russian blood.

Tovarishcel grew up reading Bolshevik tracts by Lenin, Trotsky, Kirov and Bukharin and learning of the great and inspiring history of the former Soviet Union by both studying the military achievements of its many generals and marshals during the Great Patriotic War as well as speaking with his living ancestors.

Tovarishcel descends from a long tradition of military service which dates back to the founding of the Soviet Union and continues with his grandfather who served as a Major General and commanding officer of a Soviet Guards Infantry Division during the mighty Battle of Berlin. His father is a retired Colonel in the former Soviet KGB who was personally responsible for torturing dissidents, liberals, freethinkers, faggots and mostly women to death on behalf the orders of General Secretary Brezhnev. Tovarishcel considers his own service as a senior non-commissioned officer in the ranks of the IPF a continuation of this long and proud family tradition of fighting against normies and enslaving women.

Tovarishcel's contributions to the cause of incel liberation are nearly as momentous and historically significant as the contributions of the great Comrade Marshal Stalin to the cause of Russian revolution. Much like the struggle of the early Bolsheviks against the frivolity, materialism and promiscuity of aristocratic chads and stacy's who served the Czar, Tovarishcel and his fellow IPF soldiers fight their own revolutionary struggle against the oppressive and degenerate forces of modern normies, jews, foids and all infidels who challenge the righteous imposition of holy Sharia law.

Tovarishcel has acquired considerable real-world experience by training directly with the much-vaunted Russian FSB security services. While on deployment in Chechnya and working together with the local forces of Islamic Mujahedeen, Tovarishcel conducted many missions which required great skill and personal discretion as well as a fanatical loyalty to both the Great Putin and almighty Allah.

Tovarishcel looks forward to continuing his already venerable service as a leader in the IPF command staff and likewise aspires to become not just a more zealous incel revolutionary warrior but also a more pious and fanatical soldier of Allah.
